

One platform. Four ways to modernise your operation.

Keep your existing system, replace it with Merlinium, manage the wider operation or start with the Carrier app.

KEY DIFFERENCE	CONNECT	LITE	PRO	CARRIER
Main outcome	Keep your current software and remove duplicate compliance entry.	Run the weighbridge and yard from one connected system.	Control multiple workflows, sites and management reporting.	Create compliant movement records and invoices from your phone.
Ideal fit	Established single or multi-site operators keeping their current yard system.	Single-site and focused yard operations.	Complex and multi-site operators needing wider control.	Carriers, brokers and dealers working on the move.
Starting point	Site and system review, connection plan, testing and launch.	Operational review, data preparation, configuration and training.	Operational review followed by a phased implementation plan.	Create an account, add business details and start from your phone.
Indicative implementation	Typically 4-8 weeks	Typically 6-12 weeks	Phased plan after review	Same-day self setup
Price guidance	Following operational review	Following operational review	Following operational review	£20 per month
Best next step	Book a site review	Book a Lite demonstration	Book a Pro demonstration	Start Carrier

PROVEN IN LIVE OPERATIONS	TRUST AND DELIVERY
23 working business applications delivered 5,000+ live tickets processed 25 hours of administration removed per week	Built in the UK • Waste-industry expertise • Secure cloud hosting • MFA • Daily backups • UK GDPR

Indicative implementation timings are confirmed after reviewing the operation, data, hardware and integrations. Carrier price shown is £20 per month. Visit merlinium.co.uk or email info@merlinium.co.uk.
